Hon. Donald J. Trump
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear Mr. President:

Thank you for your leadership in warning about the threat the United States increasingly faces from Communists seeking power and, in some cases, electoral office, even as they pursue our country's destruction.

We are also deeply grateful for your recent declaration to Glenn Beck that you "would absolutely prohibit" sharia law – a parallel effort by domestic and foreign jihadists to supplant our Constitution with *their* totalitarian system.

It is hard to overstate the importance of raising the alarm not only about each of these enemies separately, but also about the subversive collaboration in which their informal "Red-Green axis" is engaged inside the United States.

The fact that Democrat politicians associated with one or both of these forces currently serve in federal or state positions and that numerous others are currently campaigning to do so constitute both present *and looming* dangers. It would alarm, and probably infuriate, most Americans to learn that such individuals cannot truthfully, let alone reliably, take their oaths of office.

We respectfully suggest that it behooves the Republican Party you lead to make a priority during this critical run-up to the midterm elections of highlighting the Party's historic, and continuing, *commitment to freedom*. After all, the GOP was founded by the Abolitionist Movement and leaders like Abraham Lincoln and Frederick Douglass. It needs to, indeed it *must*, powerfully stand for liberty in our time as they did in theirs.

That is especially so since the contrast could not be more stark with the Democrats and their relentless, and ongoing, *enabling of slavery* – from their party's earliest days right up to the present moment, in which their Marxist and jihadist cohorts seek to *enslave us all*.

The upcoming Midterm RNC Convention presents a truly Providential opportunity to showcase such messaging. We stand ready to help amplify the propositions that this election is, as Ronald Reagan memorably put it, "a time for choosing" and that patriots of every political affiliation must turn out this Fall and vote for *freedom over slavery*.

We urge you to make our choice of freedom a key plank in what can effectively be a *defining, national and winning platform* in the elections across America this November.

Sincerely,
